Projects
Project 1 Platform - Personal project (2010)
Implemented module 1 of the platform with detailed notes about design tradeoffs, testing and rollout for item 1 of the long description
Implemented module 2 of the platform with detailed notes about design tradeoffs, testing and rollout for item 2 of the long description
Implemented module 3 of the platform with detailed notes about design tradeoffs, testing and rollout for item 3 of the long description
Implemented module 4 of the platform with detailed notes about design tradeoffs, testing and rollout for item 4 of the long description
Implemented module 5 of the platform with detailed notes about design tradeoffs, testing and rollout for item 5 of the long description
Implemented module 6 of the platform with detailed notes about design tradeoffs, testing and rollout for item 6 of the long description
Implemented module 7 of the platform with detailed notes about design tradeoffs, testing and rollout for item 7 of the long description
Implemented module 8 of the platform with detailed notes about design tradeoffs, testing and rollout for item 8 of the long description
Implemented module 9 of the platform with detailed notes about design tradeoffs, testing and rollout for item 9 of the long description
Implemented module 10 of the platform with detailed notes about design tradeoffs, testing and rollout for item 10 of the long description
Implemented module 11 of the platform with detailed notes about design tradeoffs, testing and rollout for item 11 of the long description
Implemented module 12 of the platform with detailed notes about design tradeoffs, testing and rollout for item 12 of the long description
Project 2 Platform - Personal project (2011)
Implemented module 13 of the platform with detailed notes about design tradeoffs, testing and rollout for item 13 of the long description
Implemented module 14 of the platform with detailed notes about design tradeoffs, testing and rollout for item 14 of the long description
Implemented module 15 of the platform with detailed notes about design tradeoffs, testing and rollout for item 15 of the long description
Implemented module 16 of the platform with detailed notes about design tradeoffs, testing and rollout for item 16 of the long description
Implemented module 17 of the platform with detailed notes about design tradeoffs, testing and rollout for item 17 of the long description
Implemented module 18 of the platform with detailed notes about design tradeoffs, testing and rollout for item 18 of the long description
Implemented module 19 of the platform with detailed notes about design tradeoffs, testing and rollout for item 19 of the long description
Implemented module 20 of the platform with detailed notes about design tradeoffs, testing and rollout for item 20 of the long description
Implemented module 21 of the platform with detailed notes about design tradeoffs, testing and rollout for item 21 of the long description
Implemented module 22 of the platform with detailed notes about design tradeoffs, testing and rollout for item 22 of the long description
Implemented module 23 of the platform with detailed notes about design tradeoffs, testing and rollout for item 23 of the long description
Implemented module 24 of the platform with detailed notes about design tradeoffs, testing and rollout for item 24 of the long description
Project 3 Platform - Personal project (2012)
Implemented module 25 of the platform with detailed notes about design tradeoffs, testing and rollout for item 25 of the long description
Implemented module 26 of the platform with detailed notes about design tradeoffs, testing and rollout for item 26 of the long description
Implemented module 27 of the platform with detailed notes about design tradeoffs, testing and rollout for item 27 of the long description
Implemented module 28 of the platform with detailed notes about design tradeoffs, testing and rollout for item 28 of the long description

Implemented module 29 of the platform with detailed notes about design tradeoffs, testing and rollout for item 29 of the long description
Implemented module 30 of the platform with detailed notes about design tradeoffs, testing and rollout for item 30 of the long description
Implemented module 31 of the platform with detailed notes about design tradeoffs, testing and rollout for item 31 of the long description
Implemented module 32 of the platform with detailed notes about design tradeoffs, testing and rollout for item 32 of the long description
Implemented module 33 of the platform with detailed notes about design tradeoffs, testing and rollout for item 33 of the long description
Implemented module 34 of the platform with detailed notes about design tradeoffs, testing and rollout for item 34 of the long description
Implemented module 35 of the platform with detailed notes about design tradeoffs, testing and rollout for item 35 of the long description
Implemented module 36 of the platform with detailed notes about design tradeoffs, testing and rollout for item 36 of the long description
Project 4 Platform - Personal project (2013)
Implemented module 37 of the platform with detailed notes about design tradeoffs, testing and rollout for item 37 of the long description
Implemented module 38 of the platform with detailed notes about design tradeoffs, testing and rollout for item 38 of the long description
Implemented module 39 of the platform with detailed notes about design tradeoffs, testing and rollout for item 39 of the long description
Implemented module 40 of the platform with detailed notes about design tradeoffs, testing and rollout for item 40 of the long description
Implemented module 41 of the platform with detailed notes about design tradeoffs, testing and rollout for item 41 of the long description
Implemented module 42 of the platform with detailed notes about design tradeoffs, testing and rollout for item 42 of the long description
Implemented module 43 of the platform with detailed notes about design tradeoffs, testing and rollout for item 43 of the long description
Implemented module 44 of the platform with detailed notes about design tradeoffs, testing and rollout for item 44 of the long description
Implemented module 45 of the platform with detailed notes about design tradeoffs, testing and rollout for item 45 of the long description
Implemented module 46 of the platform with detailed notes about design tradeoffs, testing and rollout for item 46 of the long description
Implemented module 47 of the platform with detailed notes about design tradeoffs, testing and rollout for item 47 of the long description
Implemented module 48 of the platform with detailed notes about design tradeoffs, testing and rollout for item 48 of the long description
Project 5 Platform - Personal project (2014)
Implemented module 49 of the platform with detailed notes about design tradeoffs, testing and rollout for item 49 of the long description
Implemented module 50 of the platform with detailed notes about design tradeoffs, testing and rollout for item 50 of the long description
Implemented module 51 of the platform with detailed notes about design tradeoffs, testing and rollout for item 51 of the long description
Implemented module 52 of the platform with detailed notes about design tradeoffs, testing and rollout for item 52 of the long description
Implemented module 53 of the platform with detailed notes about design tradeoffs, testing and rollout for item 53 of the long description
Implemented module 54 of the platform with detailed notes about design tradeoffs, testing and rollout for item 54 of the long description
Implemented module 55 of the platform with detailed notes about design tradeoffs, testing and rollout for item 55 of the long description
Implemented module 56 of the platform with detailed notes about design tradeoffs, testing and rollout for item 56 of the long description
Implemented module 57 of the platform with detailed notes about design tradeoffs, testing and rollout for item 57 of the long description
Implemented module 58 of the platform with detailed notes about design tradeoffs, testing and rollout for item 58 of the long description

Implemented module 59 of the platform with detailed notes about design tradeoffs, testing and rollout for item 59 of the long description
Implemented module 60 of the platform with detailed notes about design tradeoffs, testing and rollout for item 60 of the long description
Project 6 Platform - Personal project (2015)
Implemented module 61 of the platform with detailed notes about design tradeoffs, testing and rollout for item 61 of the long description
Implemented module 62 of the platform with detailed notes about design tradeoffs, testing and rollout for item 62 of the long description
Implemented module 63 of the platform with detailed notes about design tradeoffs, testing and rollout for item 63 of the long description
Implemented module 64 of the platform with detailed notes about design tradeoffs, testing and rollout for item 64 of the long description
Implemented module 65 of the platform with detailed notes about design tradeoffs, testing and rollout for item 65 of the long description
Implemented module 66 of the platform with detailed notes about design tradeoffs, testing and rollout for item 66 of the long description
Implemented module 67 of the platform with detailed notes about design tradeoffs, testing and rollout for item 67 of the long description
Implemented module 68 of the platform with detailed notes about design tradeoffs, testing and rollout for item 68 of the long description
Implemented module 69 of the platform with detailed notes about design tradeoffs, testing and rollout for item 69 of the long description
Implemented module 70 of the platform with detailed notes about design tradeoffs, testing and rollout for item 70 of the long description
Implemented module 71 of the platform with detailed notes about design tradeoffs, testing and rollout for item 71 of the long description
Implemented module 72 of the platform with detailed notes about design tradeoffs, testing and rollout for item 72 of the long description
Project 7 Platform - Personal project (2016)
Implemented module 73 of the platform with detailed notes about design tradeoffs, testing and rollout for item 73 of the long description
Implemented module 74 of the platform with detailed notes about design tradeoffs, testing and rollout for item 74 of the long description
Implemented module 75 of the platform with detailed notes about design tradeoffs, testing and rollout for item 75 of the long description
Implemented module 76 of the platform with detailed notes about design tradeoffs, testing and rollout for item 76 of the long description
Implemented module 77 of the platform with detailed notes about design tradeoffs, testing and rollout for item 77 of the long description
Implemented module 78 of the platform with detailed notes about design tradeoffs, testing and rollout for item 78 of the long description
Implemented module 79 of the platform with detailed notes about design tradeoffs, testing and rollout for item 79 of the long description
Implemented module 80 of the platform with detailed notes about design tradeoffs, testing and rollout for item 80 of the long description
Implemented module 81 of the platform with detailed notes about design tradeoffs, testing and rollout for item 81 of the long description
Implemented module 82 of the platform with detailed notes about design tradeoffs, testing and rollout for item 82 of the long description
Implemented module 83 of the platform with detailed notes about design tradeoffs, testing and rollout for item 83 of the long description
Implemented module 84 of the platform with detailed notes about design tradeoffs, testing and rollout for item 84 of the long description
Project 8 Platform - Personal project (2017)
Implemented module 85 of the platform with detailed notes about design tradeoffs, testing and rollout for item 85 of the long description
Implemented module 86 of the platform with detailed notes about design tradeoffs, testing and rollout for item 86 of the long description
Implemented module 87 of the platform with detailed notes about design tradeoffs, testing and rollout for item 87 of the long description
Implemented module 88 of the platform with detailed notes about design tradeoffs

, testing and rollout for item 88 of the long description
Implemented module 89 of the platform with detailed notes about design tradeoffs, testing and rollout for item 89 of the long description
Implemented module 90 of the platform with detailed notes about design tradeoffs, testing and rollout for item 90 of the long description
Implemented module 91 of the platform with detailed notes about design tradeoffs, testing and rollout for item 91 of the long description
Implemented module 92 of the platform with detailed notes about design tradeoffs, testing and rollout for item 92 of the long description
Implemented module 93 of the platform with detailed notes about design tradeoffs, testing and rollout for item 93 of the long description
Implemented module 94 of the platform with detailed notes about design tradeoffs, testing and rollout for item 94 of the long description
Implemented module 95 of the platform with detailed notes about design tradeoffs, testing and rollout for item 95 of the long description
Implemented module 96 of the platform with detailed notes about design tradeoffs, testing and rollout for item 96 of the long description
Project 9 Platform - Personal project (2018)
Implemented module 97 of the platform with detailed notes about design tradeoffs, testing and rollout for item 97 of the long description
Implemented module 98 of the platform with detailed notes about design tradeoffs, testing and rollout for item 98 of the long description
Implemented module 99 of the platform with detailed notes about design tradeoffs, testing and rollout for item 99 of the long description
Implemented module 100 of the platform with detailed notes about design tradeoffs, testing and rollout for item 100 of the long description
Implemented module 101 of the platform with detailed notes about design tradeoffs, testing and rollout for item 101 of the long description
Implemented module 102 of the platform with detailed notes about design tradeoffs, testing and rollout for item 102 of the long description
Implemented module 103 of the platform with detailed notes about design tradeoffs, testing and rollout for item 103 of the long description
Implemented module 104 of the platform with detailed notes about design tradeoffs, testing and rollout for item 104 of the long description
Implemented module 105 of the platform with detailed notes about design tradeoffs, testing and rollout for item 105 of the long description
Implemented module 106 of the platform with detailed notes about design tradeoffs, testing and rollout for item 106 of the long description
Implemented module 107 of the platform with detailed notes about design tradeoffs, testing and rollout for item 107 of the long description
Implemented module 108 of the platform with detailed notes about design tradeoffs, testing and rollout for item 108 of the long description
Project 10 Platform - Personal project (2019)
Implemented module 109 of the platform with detailed notes about design tradeoffs, testing and rollout for item 109 of the long description
Implemented module 110 of the platform with detailed notes about design tradeoffs, testing and rollout for item 110 of the long description
Implemented module 111 of the platform with detailed notes about design tradeoffs, testing and rollout for item 111 of the long description
Implemented module 112 of the platform with detailed notes about design tradeoffs, testing and rollout for item 112 of the long description
Implemented module 113 of the platform with detailed notes about design tradeoffs, testing and rollout for item 113 of the long description
Implemented module 114 of the platform with detailed notes about design tradeoffs, testing and rollout for item 114 of the long description
Implemented module 115 of the platform with detailed notes about design tradeoffs, testing and rollout for item 115 of the long description
Implemented module 116 of the platform with detailed notes about design tradeoffs, testing and rollout for item 116 of the long description
Implemented module 117 of the platform with detailed notes about design tradeoffs, testing and rollout for item 117 of the long description
Implemented module 118 of the platform with detailed notes about design tradeoff

s, testing and rollout for item 118 of the long description
Implemented module 119 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 119 of the long description
Implemented module 120 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 120 of the long description
Project 11 Platform - Personal project (2020)
Implemented module 121 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 121 of the long description
Implemented module 122 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 122 of the long description
Implemented module 123 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 123 of the long description
Implemented module 124 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 124 of the long description
Implemented module 125 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 125 of the long description
Implemented module 126 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 126 of the long description
Implemented module 127 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 127 of the long description
Implemented module 128 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 128 of the long description
Implemented module 129 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 129 of the long description
Implemented module 130 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 130 of the long description
Implemented module 131 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 131 of the long description
Implemented module 132 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 132 of the long description
Project 12 Platform - Personal project (2021)
Implemented module 133 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 133 of the long description
Implemented module 134 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 134 of the long description
Implemented module 135 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 135 of the long description
Implemented module 136 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 136 of the long description
Implemented module 137 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 137 of the long description
Implemented module 138 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 138 of the long description
Implemented module 139 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 139 of the long description
Implemented module 140 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 140 of the long description
Implemented module 141 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 141 of the long description
Implemented module 142 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 142 of the long description
Implemented module 143 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 143 of the long description
Implemented module 144 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 144 of the long description
Project 13 Platform - Personal project (2022)
Implemented module 145 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 145 of the long description
Implemented module 146 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 146 of the long description
Implemented module 147 of the platform with detailed notes about design tradeoff
s, testing and rollout for item 147 of the long description

Implemented module 148 of the platform with detailed notes about design tradeoffs, testing and rollout for item 148 of the long description
Implemented module 149 of the platform with detailed notes about design tradeoffs, testing and rollout for item 149 of the long description
Implemented module 150 of the platform with detailed notes about design tradeoffs, testing and rollout for item 150 of the long description
Implemented module 151 of the platform with detailed notes about design tradeoffs, testing and rollout for item 151 of the long description
Implemented module 152 of the platform with detailed notes about design tradeoffs, testing and rollout for item 152 of the long description
Implemented module 153 of the platform with detailed notes about design tradeoffs, testing and rollout for item 153 of the long description
Implemented module 154 of the platform with detailed notes about design tradeoffs, testing and rollout for item 154 of the long description
Implemented module 155 of the platform with detailed notes about design tradeoffs, testing and rollout for item 155 of the long description
Implemented module 156 of the platform with detailed notes about design tradeoffs, testing and rollout for item 156 of the long description
Project 14 Platform - Personal project (2023)
Implemented module 157 of the platform with detailed notes about design tradeoffs, testing and rollout for item 157 of the long description
Implemented module 158 of the platform with detailed notes about design tradeoffs, testing and rollout for item 158 of the long description
Implemented module 159 of the platform with detailed notes about design tradeoffs, testing and rollout for item 159 of the long description
Implemented module 160 of the platform with detailed notes about design tradeoffs, testing and rollout for item 160 of the long description
Implemented module 161 of the platform with detailed notes about design tradeoffs, testing and rollout for item 161 of the long description
Implemented module 162 of the platform with detailed notes about design tradeoffs, testing and rollout for item 162 of the long description
Implemented module 163 of the platform with detailed notes about design tradeoffs, testing and rollout for item 163 of the long description
Implemented module 164 of the platform with detailed notes about design tradeoffs, testing and rollout for item 164 of the long description
Implemented module 165 of the platform with detailed notes about design tradeoffs, testing and rollout for item 165 of the long description
Implemented module 166 of the platform with detailed notes about design tradeoffs, testing and rollout for item 166 of the long description
Implemented module 167 of the platform with detailed notes about design tradeoffs, testing and rollout for item 167 of the long description
Implemented module 168 of the platform with detailed notes about design tradeoffs, testing and rollout for item 168 of the long description
Project 15 Platform - Personal project (2024)
Implemented module 169 of the platform with detailed notes about design tradeoffs, testing and rollout for item 169 of the long description
Implemented module 170 of the platform with detailed notes about design tradeoffs, testing and rollout for item 170 of the long description
Implemented module 171 of the platform with detailed notes about design tradeoffs, testing and rollout for item 171 of the long description
Implemented module 172 of the platform with detailed notes about design tradeoffs, testing and rollout for item 172 of the long description
Implemented module 173 of the platform with detailed notes about design tradeoffs, testing and rollout for item 173 of the long description
Implemented module 174 of the platform with detailed notes about design tradeoffs, testing and rollout for item 174 of the long description
Implemented module 175 of the platform with detailed notes about design tradeoffs, testing and rollout for item 175 of the long description
Implemented module 176 of the platform with detailed notes about design tradeoffs, testing and rollout for item 176 of the long description
Implemented module 177 of the platform with detailed notes about design tradeoffs, testing and rollout for item 177 of the long description

Implemented module 178 of the platform with detailed notes about design tradeoffs, testing and rollout for item 178 of the long description

Implemented module 179 of the platform with detailed notes about design tradeoffs, testing and rollout for item 179 of the long description

Implemented module 180 of the platform with detailed notes about design tradeoffs, testing and rollout for item 180 of the long description

Education

B.Tech Information Technology, Last Section University, Grade: 9.0/10
